

THE VALUE OF COLON HYDROTHERAPY VERIFIED BY MEDICAL PROFESSIONALS

"Seriously ill patients tend to be chronically constipated which results in generalized toxemia. It turns out that colon hydrotherapy is the gentlest and most effective treatment for a constipation problem. Without reservation, my wish is to see it become an established procedure for many kinds of gastrointestinal problems"

—Dr. Leonard Smith M.D., *Gastrointestinal Surgeon*

"Colon Hydrotherapy is a safe way to cleanse the gut. It's a healing technique for the relief of irritable bowel syndrome with gas and bloating, chronic constipation, abdominal discomfort, and many other GI tract problems."

—Dr. Robert Charm, MD, *board certified gastroenterologist of Walnut Creek, California, and clinical professor of medicine at the University of California*

"Colon hydrotherapy works advantageously to get rid of pathology in the gastrointestinal tract. This treatment stimulates the liver and gets rid of debris in the intestinal mucosa."

—Dr. W. John Diamond, MD, *medical director of the Triad Medical Center in Reno, Nevada and coauthor of An Alternative Medicine Definitive Guide to Cancer*

"Few of us realize that failure to effectively eliminate waste products from the body causes fermentation and putrefaction (rotting of waste matter) in the colon."

—Dr. Norman W. Walker, Ph.D, D.C.,
Author of Colon Health

"I use colon hydrotherapy as part of an overall detoxification program. It promotes the second stage of liver detoxification where dissolved poisons come out in the bile."

—Dr. James P. Carter, MD, *Head of Nutrition Department at Tulane University School of Medicine*
